FOR IMMEDIATE RELEASE

THE CENTER FOR FINANCIAL STABILITY **NAMES WILLIAM R. RHODES CHAIRMAN OF ADVISORY BOARD**

(New York, New York- June 29, 2020)

The Center for Financial Stability ("CFS"), today, announced the appointment of William R. Rhodes as the first Chairman of the Organization's distinguished Advisory Board.

CFS is an independent, nonpartisan think tank focused on financial markets - with business lines presently segmented into the future of finance, data and analytics, policy, and technology.

"CFS' innovative and practical approach, programs, and research position the organization as one of the world's leading think tanks and a vital resource for the New York and international financial communities," William Rhodes said.

Rhodes is an excellent choice to hold the distinct title, as he has been an active CFS participant over many years, leading roundtable discussions and moderating panels of prominent leaders. He also delivered a seminal "Bretton Woods 2014 - Founders of the Future" keynote dinner address at the Mount Washington Resort in New Hampshire, which was exclusively available for the CFS conference, just as it was in 1944. An invite-only, guest list which included world leaders from government, business, and academia in a working-group environment to focus on the future of finance and the international monetary system.

"We are thrilled that Bill is our first Chairman of the CFS Advisory Board. His sustained leadership in finance and public policy is legendary - for his understanding of diverse interests across private institutions and nations as well as his ability to act. At this time of global risks and crises, Bill's insights and success will meaningfully magnify CFS's work in risk management, crisis prevention, and policy," said Lawrence Goodman, founder and President of the Center for Financial Stability.

William Rhodes is an American banker and philanthropist. He is former Chairman, CEO, and president of Citibank and senior vice chairman of Citigroup. He served in various senior executive positions at Citi from 1957 until his retirement from Citigroup on April 30, 2010. He gained worldwide reputation for international financial diplomacy in the 1980s, 1990s, and 2000's as a result of his leadership in helping manage the external-debt crises that involved developing nations and their creditors worldwide. During that period and in the 1990s, he headed the advisory committees of international banks that negotiated debt-restructuring agreements for
